

## Installation manual for the product configuration tool cat4CAD “offline” version

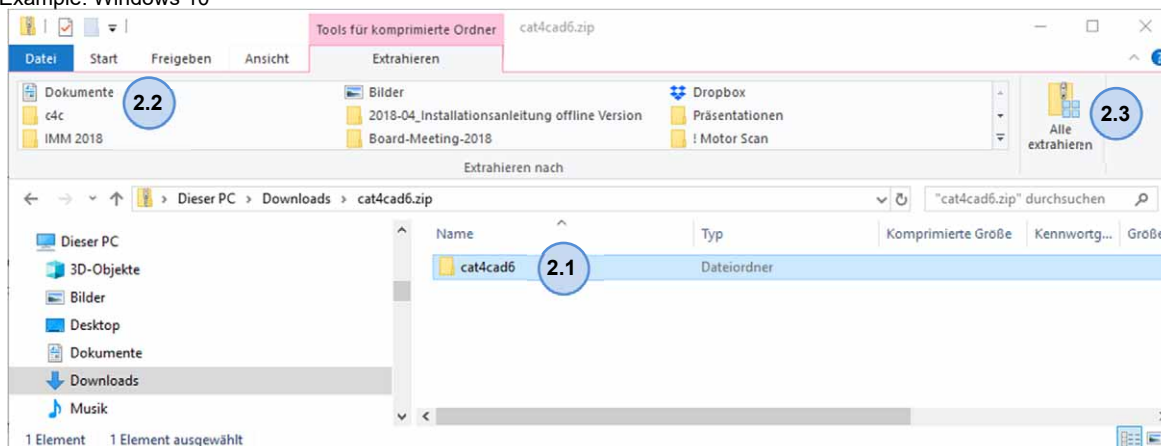

### System requirements:

- Operating system: Microsoft Windows 7, 8 or 10 (32 or 64 bit)
- Free memory space: 1,1 GB

### Installation:

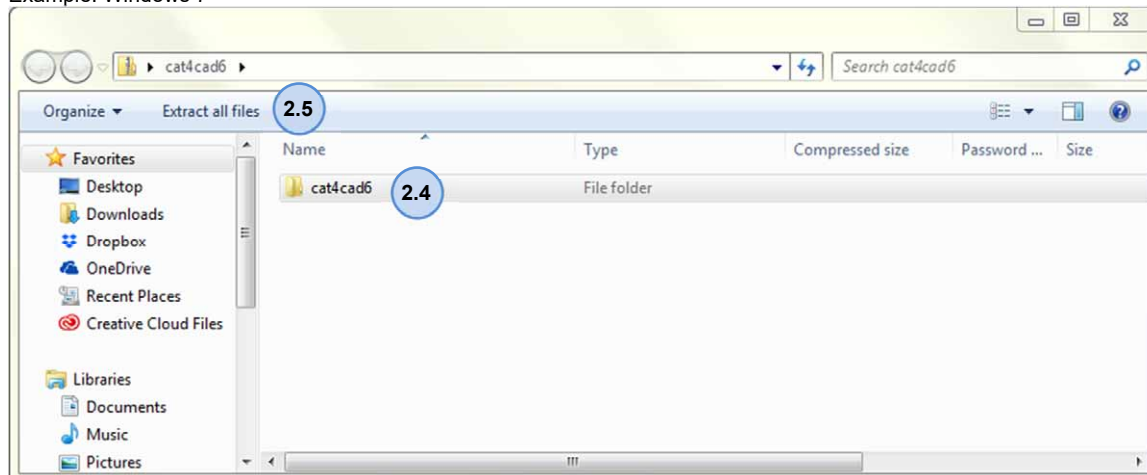

1. Download the file [cat4cad6.zip](http://www.wattdrive.com/images/downloads/software/cat4cad6.zip) from the „Downloads“ section of our website to your computer  
<http://www.wattdrive.com/images/downloads/software/cat4cad6.zip>
2. **Example Windows 10:** Double-click on the downloaded file [cat4cad6.zip](#). A new window opens, showing the folder [cat4cad6](#) (2.1) inside the zip-archive. Mark this folder. Select [Documents](#) (2.2) in the extraction menu and [cat4CAD6](#) is extracted into your [Documents](#) folder.  
If you'd like to extract [cat4cad6](#) in a different folder on your disk select the button [Extract all files](#) (2.3) and proceed to step 3.

Example. Windows 10

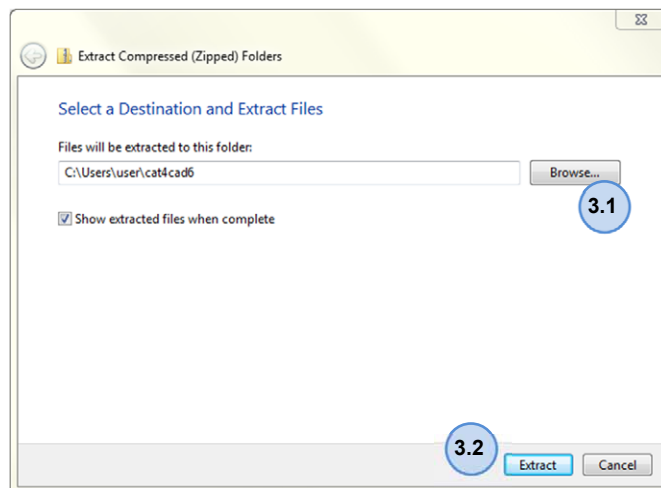

**Example Windows 7:** Double-click on the downloaded file [cat4cad6.zip](#). A new window opens, showing the folder [cat4cad6](#) (2.4) inside the zip-archive. Select [Extract all files](#) (2.5).

Example. Windows 7

3. Click the [Browse...](#) button (3.1) and select a folder of your choosing. Then click the [Extract](#) button (3.2).

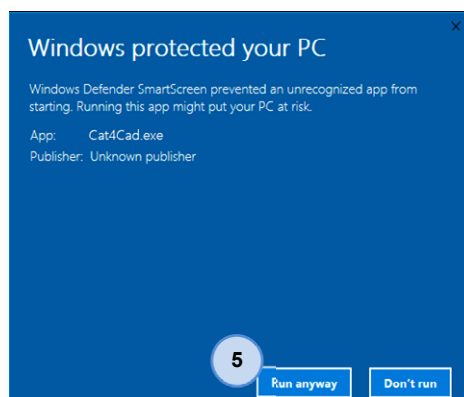

4. By pressing the [Extract](#) button, a folder [cat4cad6](#) is generated within the folder that you have chosen. This folder [cat4cad6](#) contains all the necessary programme files. The installation is now complete.

### **Run cat4CAD:**

Open the folder [cat4cad6](#) and run the programme by double-clicking the file  [Cat4Cad.exe](#)

Depending on the User Account Control settings of your computer, the following message may appear when running [Cat4Cad.exe](#) for the first time. If this is the case, just select [Run anyway](#) (5).

### **Update functionality:**

Updates for the „offline“ version of cat4CAD are provided in irregular intervals whenever there are new products or new functions added to the programme. To make sure that you're always working with the latest edition, regularly check for updates by pressing the button [cat4CAD update](#) (6).

## Uninstall cat4CAD:

1. Just delete the entire folder [cat4cad6](#) from your drive to fully remove the programme.
